PROFILE

I'm a Software Engineer, Cybersecurity Expert, Frontend Developer, QA Specialist, and Web3 Enthusiast with over 4 years of experience building secure, high-performing, and user-focused digital solutions. I'm passionate about creating scalable web applications, integrating blockchain technologies, ensuring top-notch security, and maintaining exceptional software quality through effective testing and optimization.

WORK EXPERIENCE

■ Premoza

Philippines

SOFTWARE ENGINEERING

- Designed and managed end-to-end software development processes, ensuring projects align with organizational goals and technical standards.
- Developed and implemented robust software solutions, focusing on performance, scalability, and maintainability.
- Ensured all development activities comply with core engineering principles, security standards, and best practices.

■ 2022

Rooch Network

REACT & NEXT.JS

- Collaborated with UI/UX teams to translate design prototypes into dynamic, reusable components with Tailwind CSS and Framer Motion.
- Performed unit, integration, and end-to-end testing using tools like Jest, Cypress, and React Testing Library to ensure quality and stability.
